# App Launch Flow

SLEEPWELL AI UX FLOW

## PARAMETERS / DATA FLOW

### SPLASH → ONBOARDING

DATA PAYLOAD

appVersion deviceID language

### ONBOARDING → LOGIN

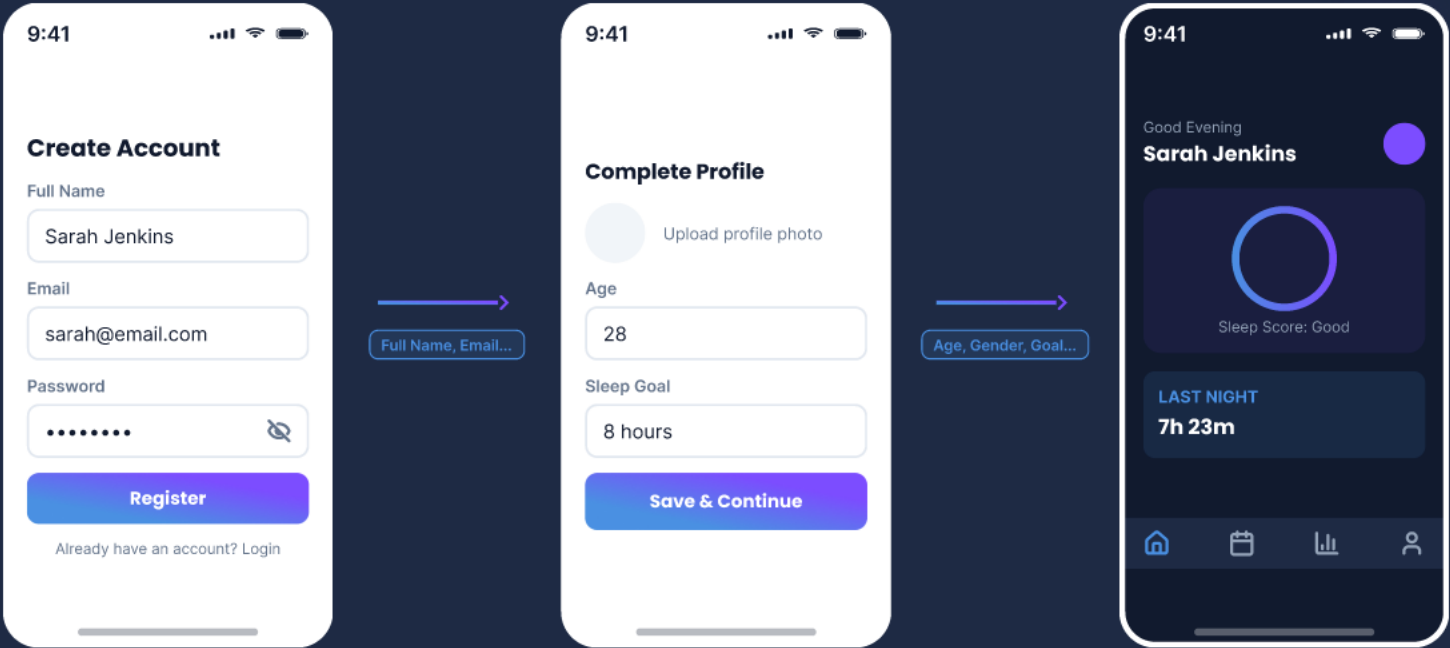

DATA PAYLOAD

isFirstLaunch theme notificationPermission

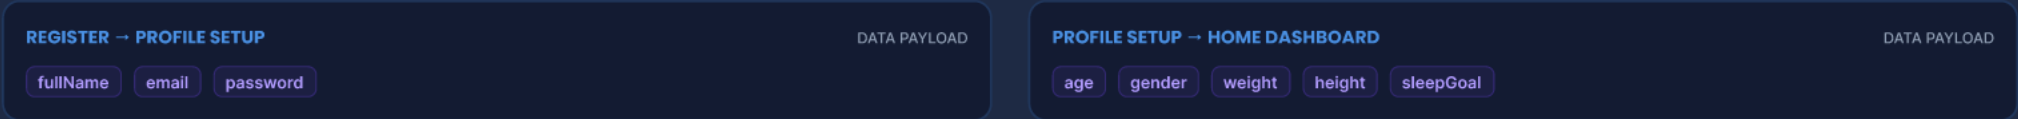

Introduces the application and directs new or returning users to authentication.

# Registration Flow

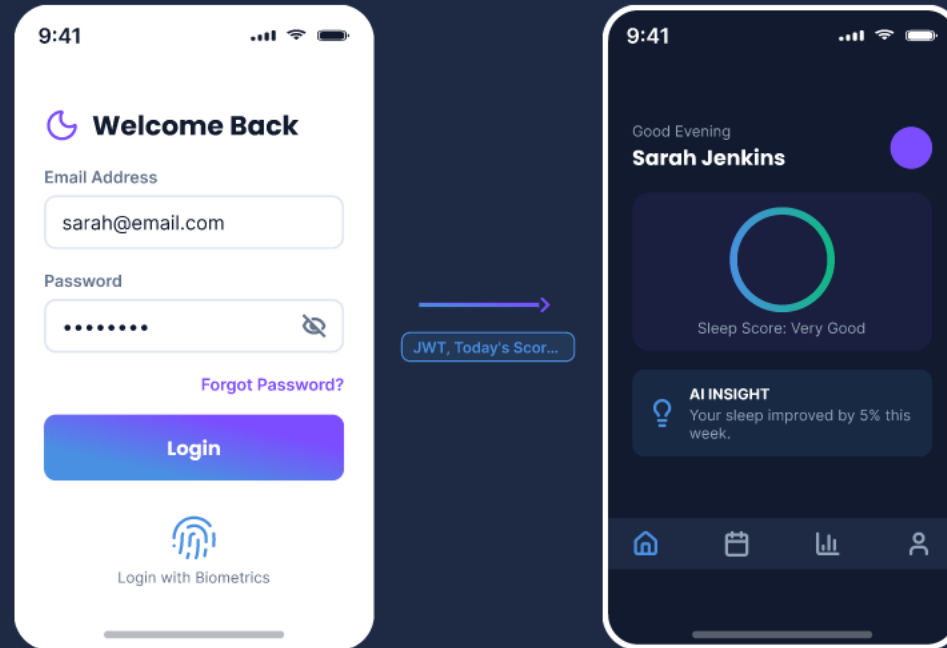

PARAMETERS / DATA FLOW

Creates a user account and collects basic health information for personalization.

# Login Flow

## PARAMETERS / DATA FLOW

LOGIN SCREEN → HOME DASHBOARD (AUTHENTICATED)

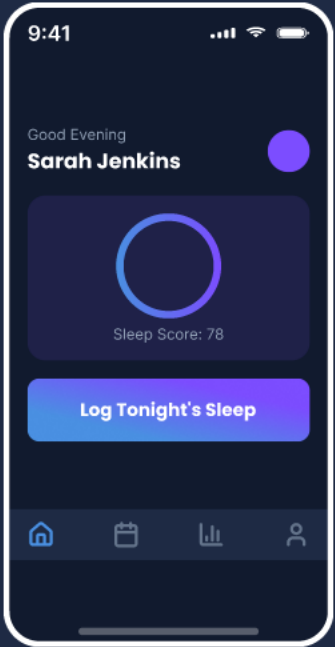

DATA PAYLOAD

email password jwtToken userId sleepScore

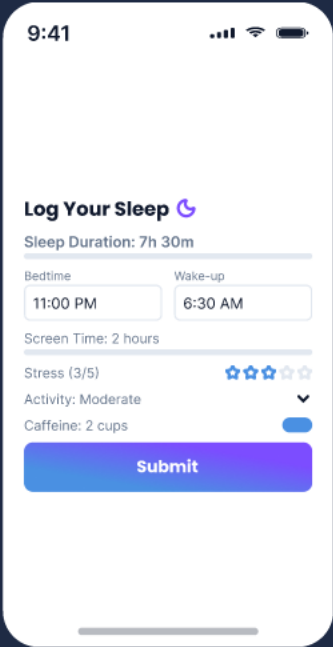

Authenticates the user and loads personalized dashboard data.

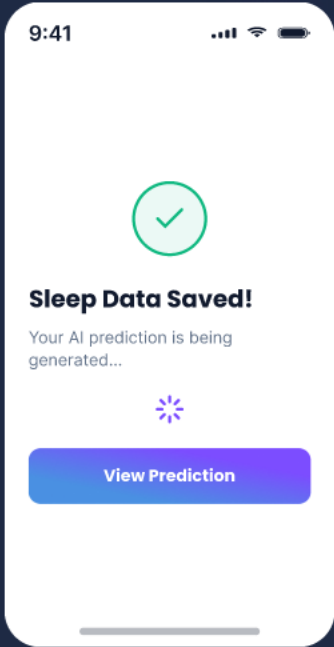

# Sleep Logging Flow

→  
UserID, Date

→  
Sleep, Bedtime, Scre...

## PARAMETERS / DATA FLOW

DASHBOARD → SLEEP LOG

DATA PAYLOAD

userID   date   lastNightScore

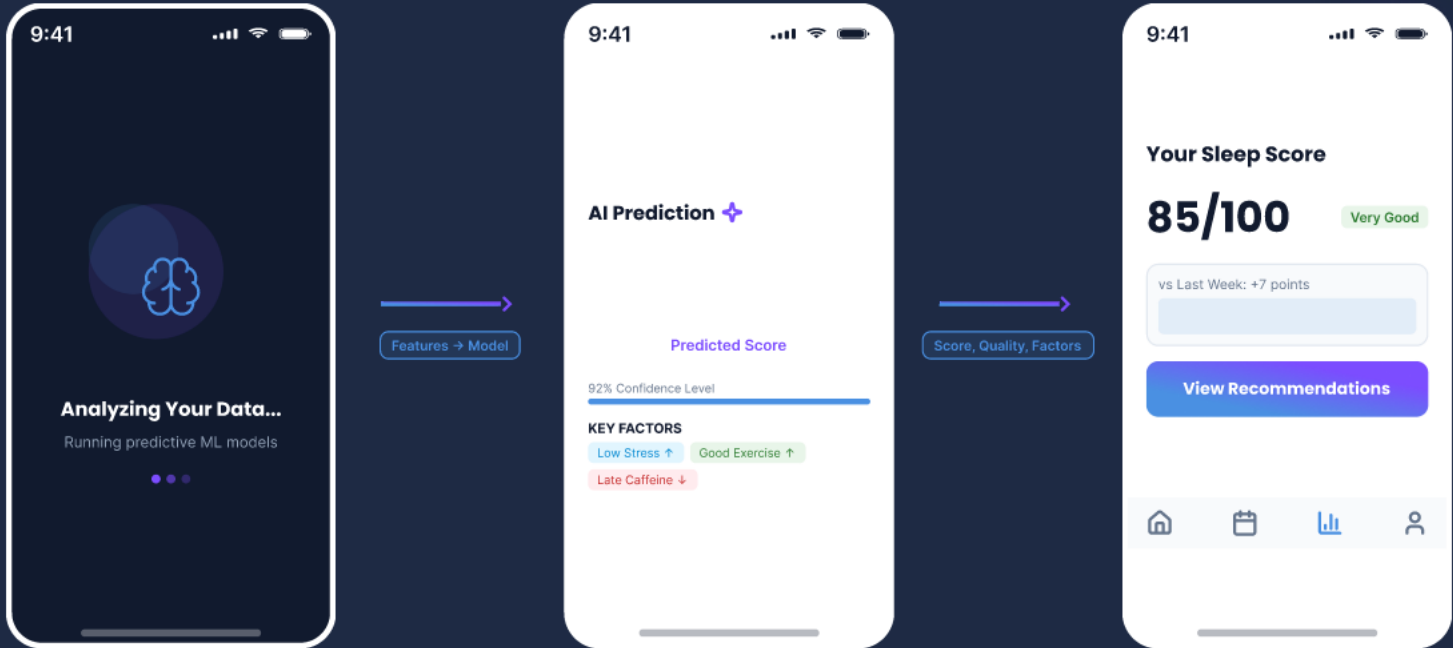

SLEEP LOG → AI PREDICTION

DATA PAYLOAD

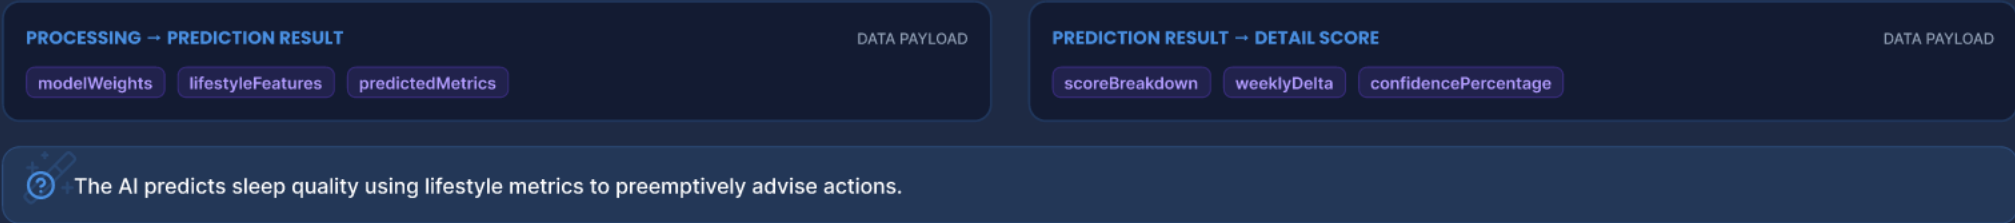

sleepDuration   bedtime   wakeupTime   screenTime   stressLevel   physicalActivity   caffeine

Collects daily sleep information for AI analysis and schedules recommendations.

# AI Prediction Flow

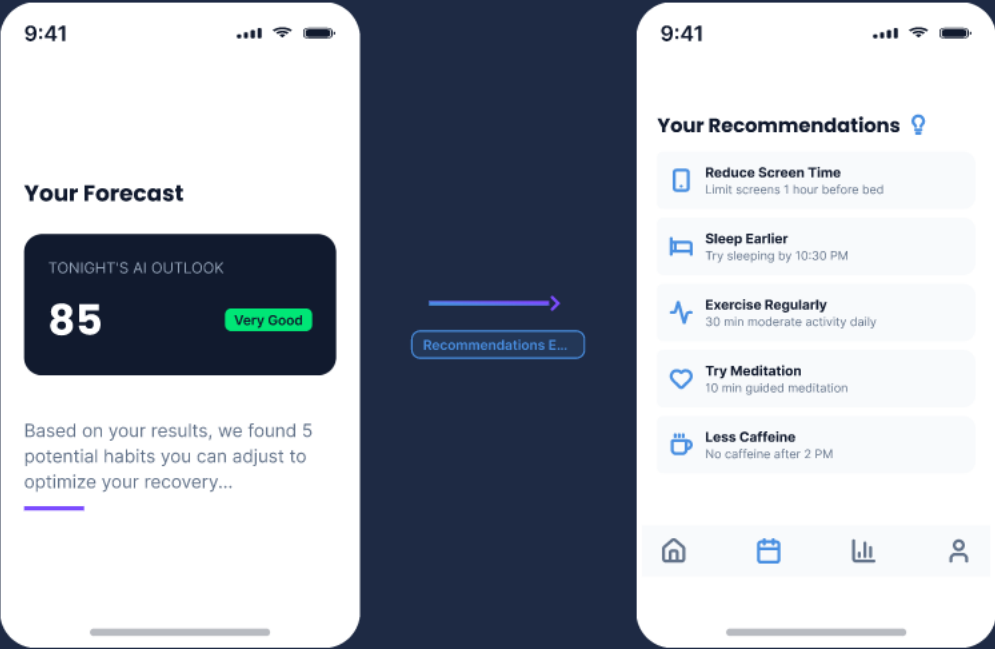

## PARAMETERS / DATA FLOW

🔍 The AI predicts sleep quality using lifestyle metrics to preemptively advise actions.

# Recommendation Flow

## PARAMETERS / DATA FLOW

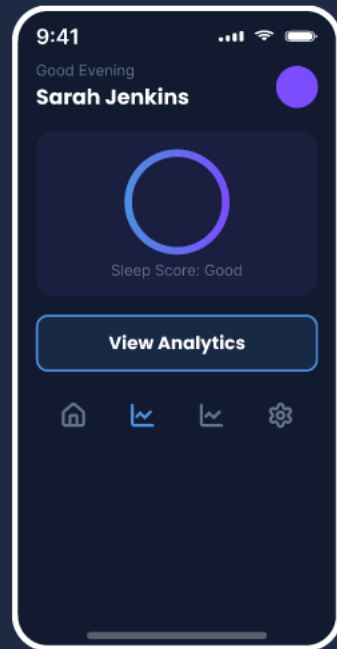

Provides personalized and contextual wind-down and lifestyle recommendations based on predictive outputs.

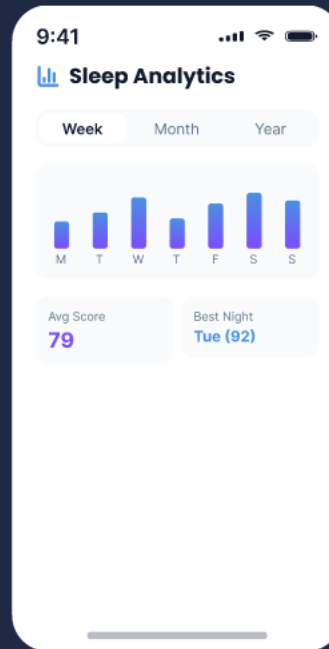

SLIDE 7

## Dashboard Analytics Flow

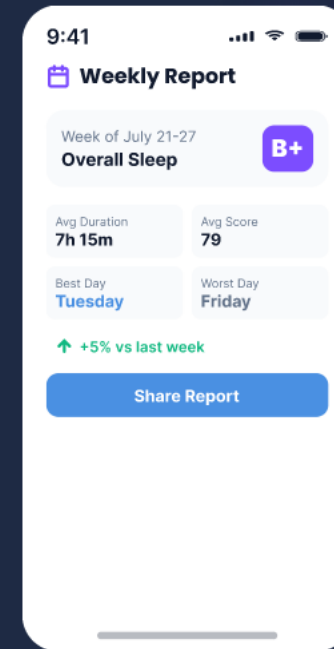

SLEEPWELL AI UX FLOW

Daily Sleep Scores

Weekly Average, Mo...

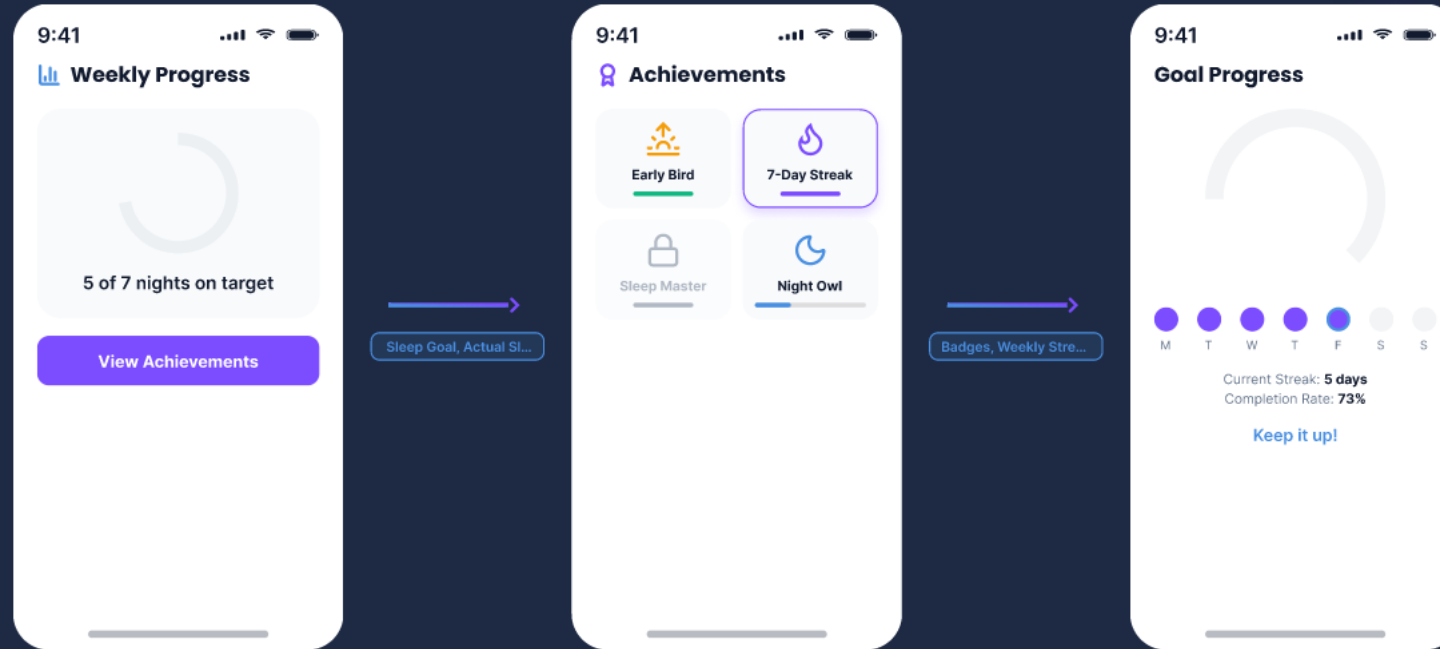

PARAMETERS / DATA FLOW

? Visualizes user sleep history and improvement trends.

SLIDE 8

## Progress Tracking Flow

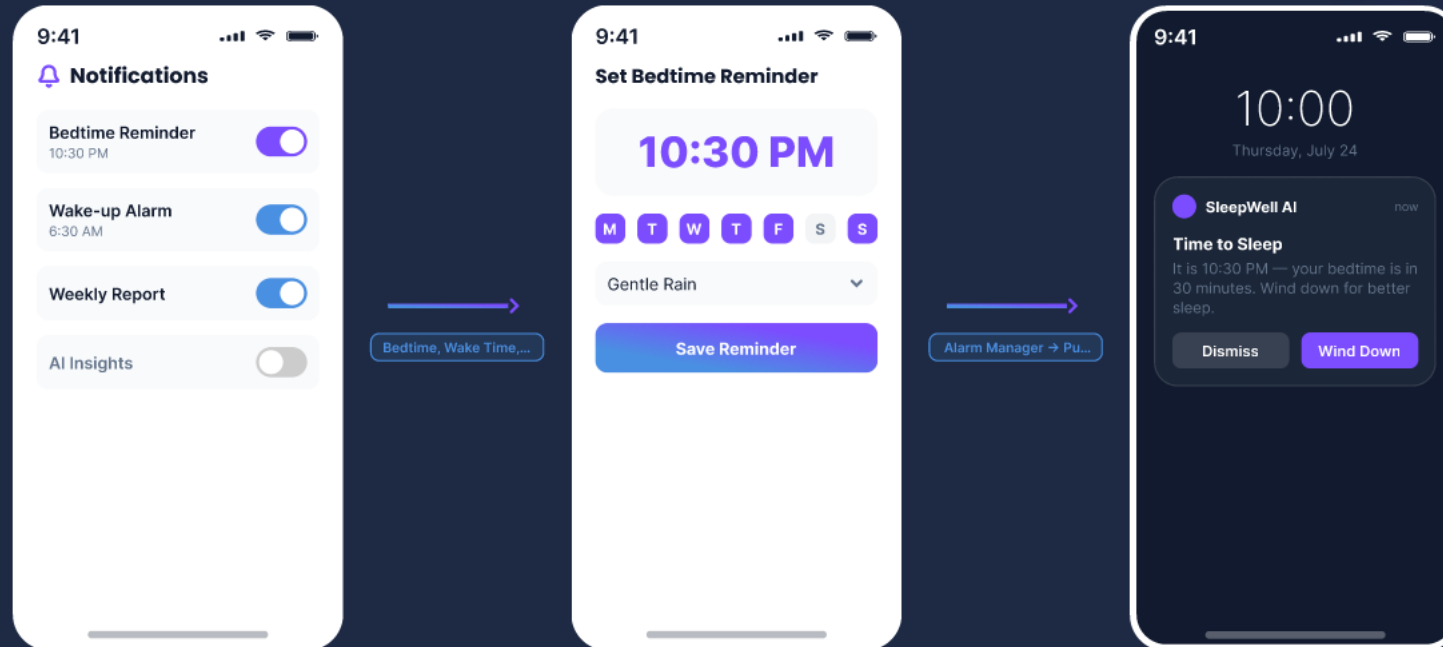

SLEEPWELL AI UX FLOW

PARAMETERS / DATA FLOW

? Tracks user progress toward healthier sleep habits.

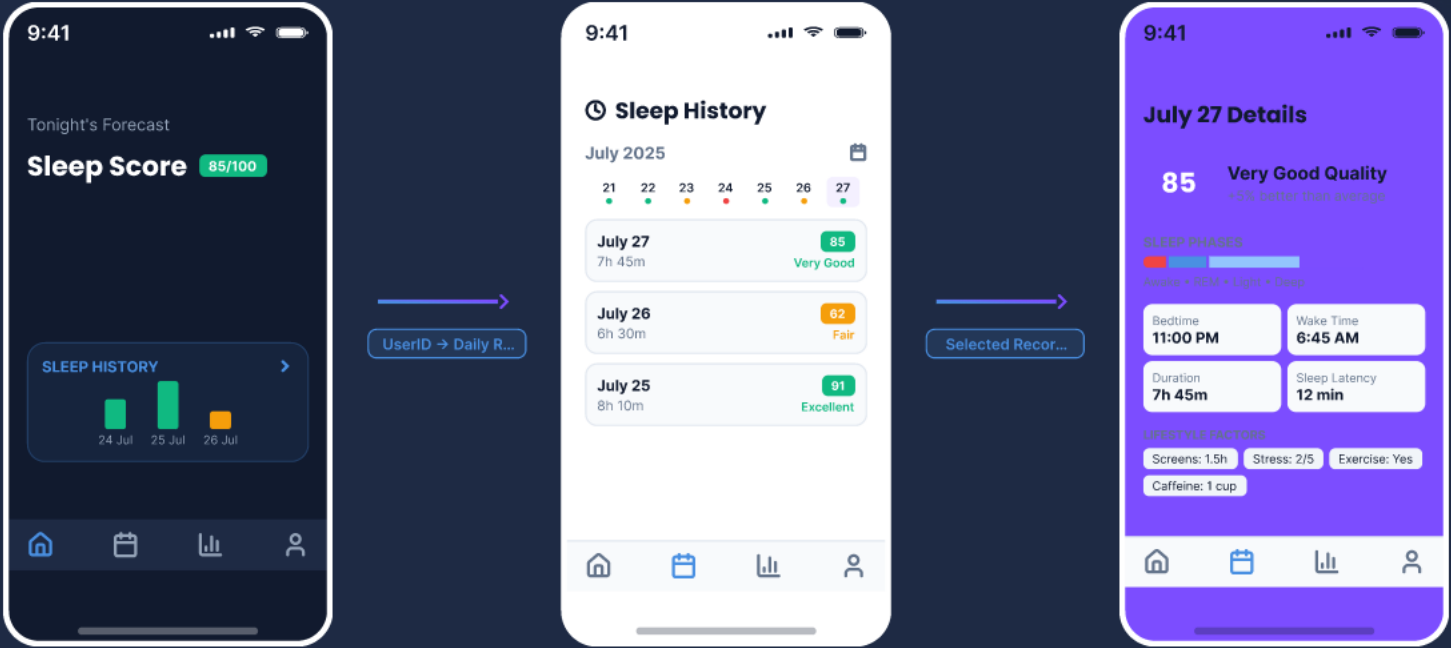

# Reminder Flow

## PARAMETERS / DATA FLOW

? Schedules bedtime and wake-up reminders.

# Sleep History Flow

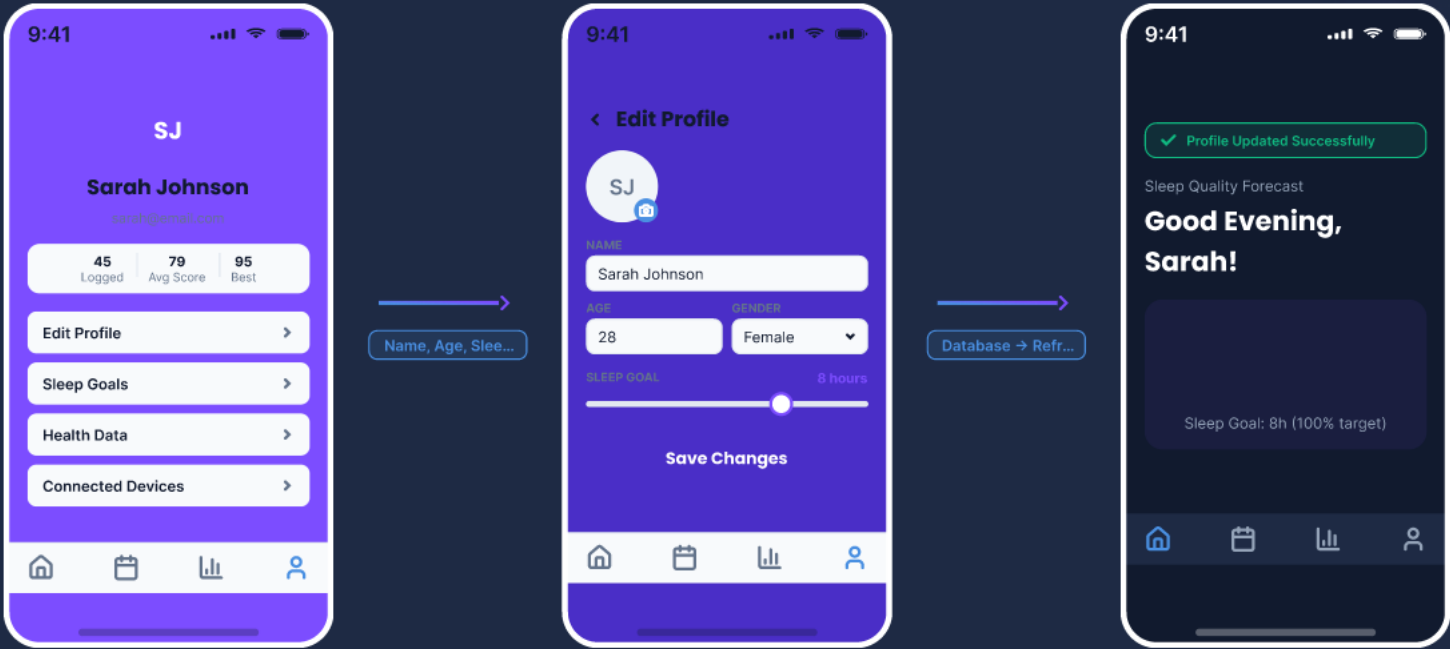

## PARAMETERS / DATA FLOW

| DASHBOARD → HISTORY                       | HISTORY → DETAILS                                      |
|-------------------------------------------|--------------------------------------------------------|
| <div>userID</div> <div>historyRange</div> | <div>selectedRecordID</div> <div>detailedMetrics</div> |
| DATA PAYLOAD                              | DATA PAYLOAD                                           |

Allows users to review previous sleep records, monitor calendar-based quality overviews, and deep-dive into detailed lifestyle factors.

# Profile Flow

PARAMETERS / DATA FLOW

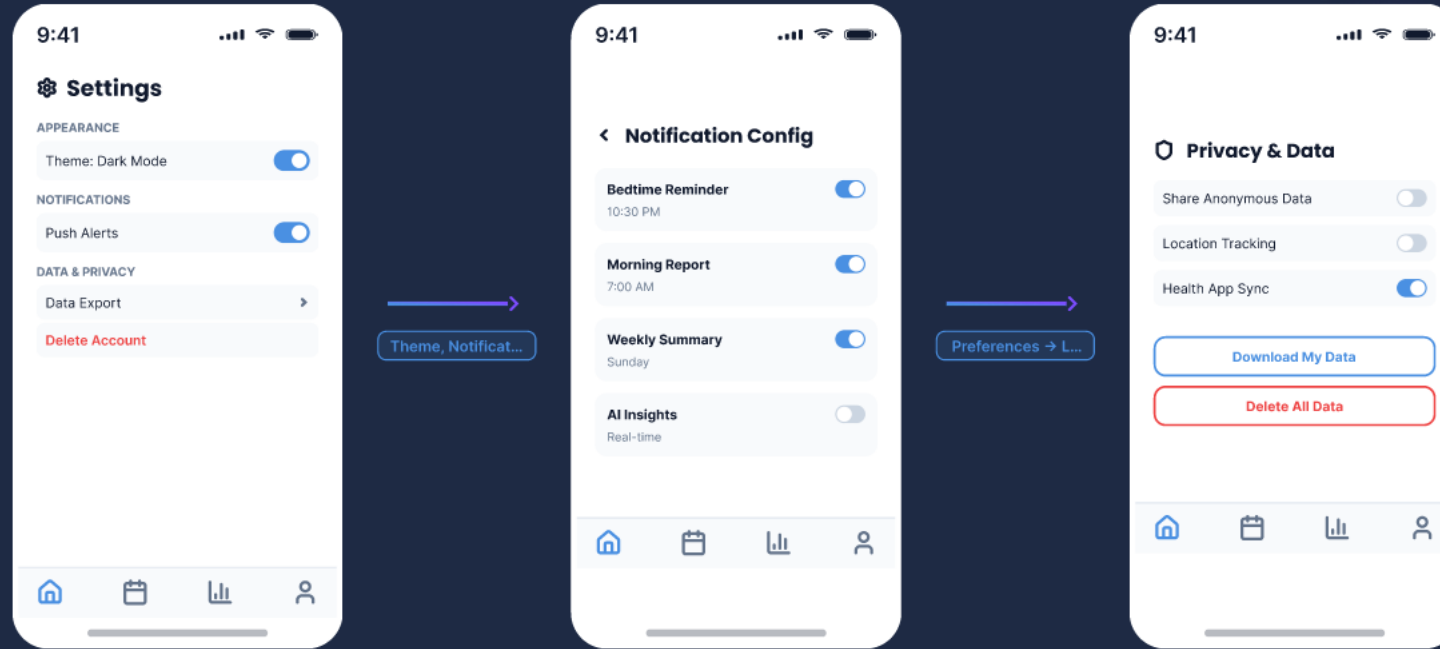

|                                                                |              |                                                      |              |
|----------------------------------------------------------------|--------------|------------------------------------------------------|--------------|
| <p>VIEW PROFILE → EDIT FORM</p> <p>fullName sleepGoalHours</p> | DATA PAYLOAD | <p>SAVE → REFRESH APP</p> <p>updatedStatus: true</p> | DATA PAYLOAD |
|----------------------------------------------------------------|--------------|------------------------------------------------------|--------------|

Updates personal health and demographic variables utilized by the predictive recommendation models.
